Join us for an engaging and informative presentation led by two of our experienced librarians, tailored specifically for master's and PhD students embarking on their research publication journey. In this session, we will address the intricacies and challenges of selecting the ideal journal for your manuscript, covering topics such as understanding impact factors, finding journals that fit your manuscripts topic, and assessing a journal's prominence within your field of study. Explore the practical utility of tools like JANE (Journal/Author Name Estimator) in efficiently identifying suitable journals for your manuscript. Additionally, we'll address the often-overlooked aspect of article publication charges, offering insights on navigating these financial considerations. Whether you're a novice researcher or seasoned academic, this presentation will provide guidance to help you navigate the complex landscape of scholarly publishing with confidence and clarity. Don't miss this opportunity to equip yourself with the knowledge and tools needed to maximize the impact of your research contributions. Join us and take the first step towards publication!
