

Ag Resources for Health and Safety

Aaron M. Yoder, PhD
Associate Professor
UNMC – CS-CASH – EAOH

Objectives

To gain an understanding of:

What online Ag Health and Safety resources are available

How to access and use these resources

How to disseminate these resources to ag workers

How to contribute to these resources

To gain an understanding of web-based Ag
Safety and Health resources apply to your job.

<http://www.drugwar101.com/blog/wp-content/uploads/2012/12/FedEx-Panda-Express.jpg>

“Don’t believe everything you read on the Internet just because there’s a picture with a quote next to it.”

—Abraham Lincoln

NIOSH Ag Centers

<https://www.cdc.gov/niosh/oep/agctrhom.html>

NIOSH Ag Safety Centers

The Centers for Agricultural Disease and Injury Research, Education, and Prevention represent a major NIOSH effort to protect the health and safety of agricultural workers and their families. The NIOSH Agricultural Centers were established as part of a Centers for Disease Control and Prevention (CDC) / NIOSH Agricultural Health and Safety Initiative in 1990. The Centers were established by cooperative agreement to conduct research, education, and prevention projects to address the nation's pressing agricultural health and safety problems. Geographically, the Centers are distributed throughout the nation to be responsive to the agricultural health and safety issues unique to the different regions.

1. Central States Center for Agricultural Safety and Health (CS-CASH)
2. Great Plains Center for Agricultural Health (GPCAH)
3. High Plains Intermountain Center for Agricultural Health and Safety (HICAHS)
4. National Children's Center for Rural and Agricultural Health and Safety (NCCRAHS)
5. Northeast Center for Occupational Health and Safety in Agriculture, Forestry, and Fishing (NEC)
6. Pacific Northwest Agricultural Safety and Health (PNASH) Center
7. Southeast Center for Agricultural Health and Injury Prevention (SCAHIP)
8. Southwest Center for Agricultural Health, Injury Prevention and Education (SW Center)
9. Upper Midwest Agricultural Safety and Health (UMASH) Center
10. Western Center for Agricultural Health and Safety (WCAHS)
11. Southeastern Coastal Center for Agricultural Health and Safety

Contact

NASD is an information clearinghouse for agricultural safety related documents. If you have a question about information found within a document, contact the author/organization that contributed the document. NASD does not have the staff and resources to respond to specific questions. <Click here> for additional information resources you might try.

Report a Problem (bad link, wrong information)

To report bad links, incorrect information, or other problems with NASD, <click here>.

Videos

If you want to acquire a video listed in NASD, we probably cannot help you. We do not distribute videos. Find the video you want to acquire, and use the contact information associated with that video. If the video contact information is not correct, <click here>. If you want to suggest a video to add to NASD, <click here>. If you want to add a listing for a video you distribute, <click here>.

Recommend Materials to Add to NASD

To recommend ag safety-related materials that you think should be included in NASD, <click here>.

Contribute Your Materials to NASD

NASD is a user-supported database. Share your ag safety-related materials with the rest of the world by adding them to NASD. To contribute your materials, <click here>.

General Suggestions

To offer suggestions on how to improve NASD, or topics you would like to see covered in NASD <click here>.

Mobile apps—computer applications that run on mobile devices such as smartphones—can be educational, fun, and easy-to-use, and they can help users improve agricultural safety and health. The number of safety and health mobile apps continues to grow in number and functionality. Below is a list of mobile apps that may be useful for agricultural safety and health:

Ag Safety Games

- [Chicken ROPS Run iOS App](#): is a fun and challenging arcade-style game with high-quality jet-pack-like game play that emphasizes the value of the tractor Rollover Protective Structure (ROPS) in saving farmers from critical injuries, and even loss of life
- [Tractor ROPS Run iOS App](#): This app reinforces principles of safe tractor operation.
- [Fun Safety Games](#): Learn workplace safety skills through a variety of games.

Ag Safety & Health Apps

- [CSP Quiz Game Plus](#): These quiz games are designed to help industrial hygienists prepare for the Board of Certified Safety Professionals comprehensive exam.
- [Decibel 10th](#): This app turns an Apple mobile device into a sound meter.
- [Equipment Inspection Mobile Phone App](#): Developed by the Farm and Ranch Safety and Health Association (FARSHA), this mobile app was designed to assist agricultural employers in conducting equipment inspections.
- [FallClear LITE - Fall Arrest Clearance Calculators](#) : This app provides fall arrest clearance calculators, tools for supervisors and workers trained in fall protection.
- [FarmPAD Mobile App](#): This app can be used to store farm records, equipment service logs, and spray records or to take notes and pictures.
- [Heat Safety Tool](#): The US Department of Labor, Occupational Safety and Health Administration (OSHA) released this app to enable workers and supervisors to calculate the heat index for their worksites and learn about protective measures to reduce the risk of heat-related illnesses.
- [Job Safety Analysis](#): This iPad app was designed for business managers to increase efficiency through a Job Safety Analysis (JSA) or the Safe Work Method Statement.
- [Ladder Safety](#): The National Institute for Occupational Safety and Health released this app to improve extension-ladder safety.
- [Machinery Sizing](#): This app estimates tractor horsepower to pull implements.
- [NIOSH Pocket Guide to Chemical Hazards for iPad](#): This app provides a source for general information about industrial hygiene.
- [Safety Inspection](#): This app provides complete criteria for a professional safety inspection and distributes inspection results by email from an iPhone or iPad.
- [VRPETERS](#) (Vehicle Rollover Prevention Education Training Emergency Reporting System): This app uses sensors and GPS to detect when a tractor rollover occurs and then sends an automatic emergency email and phone message with the incident location.
- [Winter Survival Kit](#): If you are stranded in severe winter weather, this app can help you find your location, call 911, notify emergency contacts, and calculate how long you can keep a vehicle's engine running to stay warm.
- [WorkSafeBC Safety Videos](#): This app offers access via a mobile device to more than 150 WorkSafeBC workplace safety videos.

The **Farm & Ranch eXtension in Safety and Health (FReSH) Community of Practice (CoP)** is a collaborative effort between universities, industry, and government to provide user-friendly information for the general rural population, agricultural producers, and agricultural safety and health professionals. Financial support for this project is provided by the United State Department of Agriculture, National Institute of Food and Agriculture; eXtension; and CHS Inc.

The FReSH CoP has more than 90 members that work together to provide, produce, and review agricultural safety and health information. The following information provides an overview of the site content and links to usable resources.

- **Ag Safety & Health Resources:** Various types of resources are available from the FReSH homepage (extension.org/agsafety), including options for self-paced and instructor-led learning, training and resources for instructors, [videos](#), [publications](#), and topic pages on various safety and health topics.
- **Ask an Expert:** If you still have a question after visiting the resources on the FReSH site, click [here](#) to be directed to eXtension's Ask an Expert option to ask a specific question that will be answered by an agricultural safety and health professional.
- **Online Safety Course:** Click [here](#) to learn how to enroll in an online agricultural-safety certificate course.
- **Upcoming Events:** Click [here](#) to locate professional education opportunities.
- **Webinars:** Click [here](#) to locate upcoming agricultural safety and health webinar opportunities.

If you would like join the CoP, contact Linda Fetzer at lmf8@psu.edu.

OSHA

OSHA.gov

osha.gov/dte/grant_materials/

The screenshot shows the OSHA website's page for Susan Harwood Training Grant materials. At the top, there is a red header with the OSHA logo, the text "UNITED STATES DEPARTMENT OF LABOR", social media icons for Facebook, Twitter, Instagram, RSS, and Email, a search bar with the text "Find It in OSHA", and a link to "A TO Z INDEX". Below the header, the page title is "Occupational Safety and Health Administration" with links for "English" and "Spanish". A navigation menu includes "ABOUT OSHA", "WORKERS", "EMPLOYERS", "REGULATIONS", "ENFORCEMENT", "TOPICS", "NEWS & PUBLICATIONS", "DATA", and "TRAINING". A link "Back to Susan Harwood Training Grants" is visible. The main heading is "Susan Harwood Training Grant" followed by "Grantee Produced Training Materials". Below this is a collage of various training materials, including posters and manuals with titles in Spanish and English such as "Instrucción de Protección Contra Calientes", "Cambios a Form Of Fall Protection", "Cuatro Grandes Peligros en la Construcción", "Peligros de Ser Golpeado", "¡Cuidado con algunas selecciones!", "Prevention de lesiones en la espalda", and "Fall Protection". Below the collage, there are three paragraphs of text explaining the grant program and the availability of materials. At the bottom, there are three buttons: "By Topic", "By Language", and "By Grantee". A "Please note:" section contains two bullet points regarding the use of the materials.

Susan Harwood Training Grant

Grantee Produced Training Materials

OSHA provides training and education programs for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in their workplaces through Susan Harwood Training Program grants. Grants are awarded to nonprofit organizations to support the conduct of these training and education programs.

Many Harwood grantees develop training materials and products that address workplace safety and health hazards as a part of their grant activities. In an effort to make these products available to a broader audience for training or self-development, OSHA is posting these training materials on the Harwood Web page where they may be accessed and downloaded at no charge. As additional training products become available, OSHA will post them on this site.

The products developed by grantees have been tailored to meet the needs of various training audiences (e.g., workers, employers, young workers, non-English speaking/limited English proficiency workers) and are available in a variety of formats such as training manuals, PowerPoints, pdf files, etc. Some products are also available in languages other than English such as Spanish, Vietnamese, and Mandarin.

The training products are arranged by:

[By Topic](#) [By Language](#) [By Grantee](#)

Please note:

- The training materials do not necessarily reflect the views or policies of the U.S. Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.
- These materials are copyrighted and cannot be used for commercial purposes. Users must respect and comply with all copyright laws and must agree to the terms of use as described on subsequent Web pages, before the materials can be accessed.

NIOSH

cdc.gov/niosh/

cdc.gov/niosh/topics/agriculture/

cdc.gov/niosh/oep/agctrhom.html

The screenshot shows the NIOSH website header with the CDC logo and the text "Centers for Disease Control and Prevention CDC 24/7: Saving Lives. Protecting People™". A search bar is visible in the top right. Below the header, the text "The National Institute for Occupational Safety and Health (NIOSH)" is displayed. The NIOSH logo and tagline "Promoting productive workplaces through safety and health research" are also present. The main content area is titled "AGRICULTURE, FORESTRY and FISHING" and includes social media icons for Facebook, Twitter, and a plus sign. Below this are three images: a cornfield, a logging site with a large log, and a fishing boat. A paragraph of text describes the Agriculture, Forestry, and Fishing Program (AgFF) and its mission. Below the text is a "News & Events" section with a list of recent news items, and a "Calendar of Events" section. A "Follow AgFF on the NIOSH Science Blog" section is also visible.

CDC

AGRICULTURE, FORESTRY and FISHING

Language: English (US)

The Agriculture, Forestry, and Fishing Program (AgFF) provides leadership to prevent work-related injuries and illnesses among the nation's agricultural and forestry workers and fishermen. The program engages with partners in government, industry, academia, labor, and advocacy to promote injury and illness prevention recommendations derived from NIOSH-led and NIOSH-funded research. The NIOSH-funded [Centers for Agricultural Safety and Health](#) and [NIOSH Center for Maritime Safety and Health Studies](#) conduct much of this research, as well as regional capacity-building, outreach, and research-to-practice activities. Identifying, understanding, and reducing occupational health disparities among groups of vulnerable workers in these industries is a particular focus.

News & Events

- March 2018 NIOSH Research Rounds highlights NIOSH-funded U of Iowa research evaluating H2S monitors for livestock manure handling
- April 2018 NIOSH Research Rounds features U of Idaho study testing use of Global Navigation Satellite Systems in Logging
- Looking to the Future for Ag Injury Surveillance at NIOSH
- NIOSH releases Updates of Commercial Fishing Fatality Summaries for 4 US Regions
- National Children's Center launches new Agricultural Youth Work Guidelines to help parents and supervisors assign age-appropriate tasks to kids on the farm
- NIOSH releases reports from evaluation of the Second Decade of NORA
- 2017 Childhood Agricultural Injuries Fact Sheet released by National Children's Center for Rural and Agricultural Health and Safety

Journals

Journal of Agromedicine

<https://www.tandfonline.com/loi/wagr20>

The screenshot shows the Taylor & Francis Online website for the Journal of Agromedicine. The page features a blue header with the Taylor & Francis logo, navigation links for 'Log In', 'Register', and 'Cart', and a search bar. Below the header, there is a section for 'Journal of Agromedicine' with a cover image and buttons for 'Submit an article', 'journal homepage', 'New content alerts', 'RSS', and 'Custom search'. A 'Current issue' section is also visible. The main content area is titled 'List of issues' and displays a list of volumes from 2014 to 2018, each with a circular icon to its right. A sidebar on the left contains navigation links for 'Alms and scope', 'Instructions for authors', 'Society information', 'Journal information', 'Editorial board', 'News & offers', and 'Subscribe'.

Journal of Ag Safety and Health

elibrary.asabe.org/toc_landing.asp?conf=j

The screenshot shows the ASABE website for the Journal of Agricultural Safety and Health. The page features a dark header with the ASABE logo, navigation links for 'Publications Included', 'What's New', and 'Search Tips', and a 'Logout | Cart | Change Password' link. The main content area is titled 'Journal of Agricultural Safety and Health' and displays a list of volumes from 2015 to 2024, each with a circular icon to its right. A sidebar on the left contains navigation links for 'Library Home', 'Search', 'Obtaining Full Text', 'E-mail Alert', 'Join ASABE', 'ASABE Home', 'Public Access Information', and 'Authors, please use the Guide for Authors when creating your articles.' The 'Public Access Information' section includes icons for 'Public Access (PA)', 'PA Limited Time', and 'Open Access'.

saferfarm.org

The image displays the Safer Farm website interface. At the top, a green navigation bar contains the text "Safer Farm" and links for "Home", "Dashboard", "About", and "Help". On the right side of the bar, it says "Hello AgSafetyAaron!" and "Log off". Below the navigation bar is a large banner image of a field with tall grasses under a bright sky. A dark green box is overlaid on the banner with the text "Start making your farm a safer farm today." Below the banner is a white dashboard area. The dashboard has a green header with the same navigation links and user information. A "New Site" button is in the top right corner of the dashboard. The main content area of the dashboard contains a table with the following data:

Site Name	Address	Actions
Somsky Farm	Somsky Lane Phillipsburg, PA 16866 USA	Inspections Edit Details >

Inspection Date	Inspector Name	Comment	Actions
7/8/2016	1st Inspection 07 08 2016		Edit Details Map Archive

Below the table are links for "+ New Inspection" and "View Archive". At the bottom of the page, there is a green footer with logos for "AgHealth Central States Center for Agricultural Safety and Health", "Marshfield Clinic Research Foundation", and "National Farm Medicine Center". Contact information for the National Farm Medicine Center is provided: "1000 North Oak Avenue, ML-1, Marshfield, WI 54449-5790", "General: 1-800-662-6900 Fax: 715-389-4996". A stylized white logo is in the bottom right corner.

saferfarm.org

The screenshot displays the saferfarm.org mobile application interface. On the left is a satellite map of a farm with several blue location pins. A pop-up window for a 'Bull Handling' item shows a score of 3, a group, and a comments field. The main interface is divided into three vertical panels for 'Somsky Farm' (1st Inspection 07 08 2016, 7/8/2016). The left panel shows a detailed view of the 'Bull Handling' item with a score of 3 and a 'Change' button. The middle and right panels show a list of five items, each with a score from 1 to 5 and a description of the handling conditions. The right panel also includes photos of the items. At the bottom of each panel are 'Return to Dashboard' buttons and a 'Current Location Unavailable' warning.

Score	Description	Photo
1	Penned within a secure, locked steel pipe or rebar fenced area; dehorned and fitted with bull nose ring.	Yes
2	Penned within unlocked steel pipe or rebar fenced area; dehorned and fitted with bull nose ring.	No photo on file
3	Penned within a high-tensile fenced or wooden fenced area; dehorned and fitted with bull nose ring.	Yes
4	Penned within a small woven wire fenced area; not dehorned and not fitted with bull nose ring.	No photo on file
5	Free-roaming within a pasture or lot regardless of fence type; not dehorned and not fitted with bull nose ring.	Yes

MEET ASHCA

WHY JOIN?

ASHCA
AGRICULTURAL SAFETY & HEALTH COUNCIL OF AMERICA

Why Join?

ASHCA is a non-profit organization that represents the interests of agricultural workers and employers in the United States. We are committed to improving the safety and health of our members and the agricultural industry as a whole. By joining ASHCA, you will have the opportunity to:

- Participate in the development of safety and health standards and regulations.
- Receive access to a wide range of safety and health resources, including training materials, research reports, and technical assistance.
- Network with other agricultural workers and employers from across the country.
- Help to shape the future of agriculture through your voice.

ASHCA is currently seeking new members to join our ranks. If you are interested in joining, please contact us at membership@ashca.org or call us at 800-877-7777.

County Committee Elections 2020

- **June 15, 2020** The nomination period begins
- **Aug. 1, 2020** Last day to file nomination forms
- **Nov. 2, 2020** Ballots mailed to eligible voters
- **Dec. 7, 2020** Last day to return voted ballots
- **Jan. 1, 2021** New members take office

2020 County Committee Elections Nominations for local USDA Farm Service Agency (FSA) county committee elections began on June 15. Committee members are a critical component of the day-to-day operations of FSA. They help deliver FSA farm programs at the local level. Farmers who serve on committees help decide the kind of programs their counties will offer. They work to make FSA

HELLO, WE'RE ISASH

INTERNATIONAL SOCIETY FOR AGRICULTURAL SAFETY & HEALTH

[TO THE ISASH MEMBERS AREA](#)

[JOIN ISASH TODAY!](#)

ISASH.org

ISASH 2020 Virtual Conference, July 8-9

Join us online July 8-9 for the beginning of a summer-long ISASH conference series!

The two-day kickoff will include the annual Business Meeting, awards, an international panel on agriculture during COVID-19, hospitality room and more.

It all starts at 3 p.m. Central Daylight Time on July 8 with a Mighty Networks tour. Improve your virtual conference experience by learning how to get the most out of ISASH's new online community platform.

The official welcome to the conference will be 10 a.m. (CDT) on July 9, followed at 10:30 a.m. by a panel discussion: "How has your approach to health and safety changed due to COVID-19?" The Business Meeting, complete with Committee Reports, begins at 12:30 p.m.

Registration:

Registration will open July 2 at www.isash.org. Registration fee will be \$99 for ISASH members, and \$249 for non-members (which will include annual membership). Students can register for the conference for FREE.

New Website and Online Community:

In the coming days, when you visit www.isash.org, you should see our brand new website up and running, as well as a new place for all ISASH members to interact. The online community platform from Mighty Networks is as easy to use as Facebook, and will allow members to update their profiles, connect
