

ANNUAL GIFFORD-TRUHLSEN CONFERENCE

Clinical and Translational Advancements in Ophthalmology and Visual Sciences

Friday, June 7

7:45 a.m. Opening: Ronald R. Krueger, MD

8:00 a.m. A Second Look at Teprotumumab and the Thyroid Eye Disease Therapeutic Pipeline
 Rao Chundury, MD

8:15 a.m. What's New in Facial Nerve Palsy
 Richard Allen, MD

8:45 a.m. Why RGCs Die in Glaucoma: Lessons from the Stem Cell Disease Modeling
 Iqbal Ahmad, PhD

9:00 a.m. Reading Rehabilitation for Individuals with Low Vision
 John Shepherd, MD

9:15 a.m. Obesity and Oculoplastic Surgery
 Richard Allen, MD

9:45 a.m. Break/Visit Exhibitors

10:00 a.m. Differential Diagnosis and Etiologies of Cerebral Visual Impairment (CVI)
 Richard "Skip" Legge, MD

10:15 a.m. Integrating Computer Assisted Markerless Alignment Technology into Anterior Segment Surgery
 Brian Armstrong, MD

10:30 a.m. Understanding Emerging Refractive Technologies with Panel Discussion
 (Dr. Armstrong — Moderator)

- Brian Armstrong, MD
- Karl Stonecipher, MD
- Ronald Krueger, MD
- Ivey Thornton, MD

11:30a.m. Start by Optimizing and Classifying the Ocular Surface in Your Practice
 Karl Stonecipher, MD

12:00 p.m. Lunch/Visit Exhibitors

1:00 p.m. Imaging Based Quantification of Ocular Inflammation
 Sunil Srivastava, MD

1:30 p.m. Retina Session: Retina and Uveitis Mashup – Case Presentations and Panel Discussion
 (Dr. Yeh — Moderator)

Panelists:

- Helen Song, MD
- Marc Olhausen, MD
- Sunil Srivastava, MD
- Chris Conrady
- Keegan Harkins, MD

2:30 p.m. Break/Visit Exhibitors

2:45 p.m. Building Research Capacity and Subspecialty Care in Africa: Ebola to Vision Health Systems
 Steve Yeh, MD

3:00 p.m. Harnessing Retinal Innate Immunity
 Chris Conrady, MD, PhD

3:15 p.m. What's New in Ocular Oncology
 Pukhraj Rishi, MD

3:30 p.m. Advances in Extended Duration Treatment of Diabetic Macular Edema and Diabetic Retinopathy
 Keegan Harkins, MD

3:45 p.m. Low Dose Bevacizumab for the Treatment of Type I Retinopathy of Prematurity
 Paul Rychwalski, MD

4:00 p.m. Break/Visit Exhibitors

4:15 p.m. De-mystifying Artificial Intelligence Models for Clinicians
 Ashok Puri, MD

4:30 p.m. How will Artificial Intelligence Monitor Detection and Progression of Glaucoma in the Future?
 Golnoush Mahmoudinezhad, MD-MPH

4:45 p.m. Surgery In The Uveitis Patient — Lessons for Anterior and Posterior Segment Surgeons
 Sunil Srivastava, MD

5:15 p.m. Reception/Dinner

Clinical and Translational Advancements in Ophthalmology and Visual Sciences

Saturday, June 08

7:45 a.m. Opening: Ronald R. Krueger, MD

8:00 a.m. Strategic Planning for Success in Challenging Cataract Patients
Karl Stonecipher, MD

8:30 a.m. Issues with (Conj) Closure
Shane Havens, MD

8:45 a.m. Phaco Session: Surgical Case Presentations with Panelist Discussions
(Dr. Armstrong — Moderator)

- Shane Havens, MD
- Patty Terp, MD
- Brian Armstrong, MD
- Karl Stonecipher, MD

9:45 a.m. Break

10:00 a.m. PGY4 Residents' Cataract and Premium Lens Experience at the Omaha VA
Christine Ryu, MD & Rena Xu, MD, PhD

10:18 a.m. Evaluating Causes of Hixon Lied Operating Room Delays
Marc Olhausen, MD

10:30 a.m. Engaging the Canal: Comparing Ab Interno Approaches to Surgical Trabecular Remodeling
Helen Song, MD

10:42 a.m. Outcomes of Inpatient Ophthalmology Evaluation in Asymptomatic Candidemia
Derek Lamb, MD

10:54 a.m. Histopathology of Hurler Syndrome in the Cornea and Treatment Options
Imani Williams, MD

11:06 a.m. Excalibur: An Unexpected IOFB and Management
Brent Deibert, MD

11:14 a.m. A Novel Method for IOFB Removal
Sean Kim, MD
