

iEXCEL SURGICAL TISSUE USAGE FLOW

Tissue taken out of secured cooler/freezer and set up for use

Document date of use in iEXCEL log

Course conducted with iEXCEL staff oversight

Tissue packaged back up after course completion

Internal tagging system used to identify tissue usage and includes specimen number and date of use: Red = Done; Yellow = Used again; Green = not used

If tissue used again, iEXCEL staff log date of each use

All tissue parts/pieces are kept with the accurate specimen to ensure all remains are dispositioned together
