

# CAREER CERTIFICATES PROGRAM

The University of Nebraska System has partnered with Google to make nine Career Certificates accessible to Nebraskans statewide. NU is delivering Google's industry-validated content, with live support and in coordination with local partners, via NU Advance, the NU System's home for industry-aligned non-credit offerings.

## Enrollment Instructions:

Scan the QR code to visit the Google Career Certificates subcatalog on NU Advance. Select the course you are interested in taking. You can learn more about each course by clicking the tile.

## Frequently Asked Questions:

### Who is eligible to enroll?

The program is open to any Nebraskan, regardless of affiliation with the NU System.

### When are courses offered?

The program consists of three, four month long cycles (starting in August 2024, December 2024, and April 2025) with cohorts of up to 2,500 learners statewide.

### How many courses can be taken simultaneously?

Sign-ups for courses are first come, first served. Learners can take one course at a time and if there are additional licenses remaining during a cycle, they will be made available.

## Offered Courses:

### Foundational

- Cybersecurity
- IT Support
- Data Analytics
- Digital Marketing and E-Commerce
- Project Management
- User Experience (UX) Design

### Advanced

- IT Automation with Python
- Advanced Data Analytics
- Business Intelligence

**The cost to enroll for each course in the first year is \$20.**
