Applied Practice Experience (APEX) Opportunities

Partner organization name: [Association of Healthcare Emergency Preparedness Professionals](#)

Partner organization website: [Association of Healthcare Emergency Preparedness Professionals](#)

Partner organization brief description:

The Association of Healthcare Emergency Preparedness Professionals (AHEPP) was formed in 2014 to achieve our mission, "Moving Preparedness Forward", by providing healthcare and other preparedness professionals with opportunities for networking, resource sharing, continuing education, and scholarly exchange. Each year, AHEPP hosts a national conference, AHEPP Annual, providing healthcare and other preparedness professionals with information, skills, and networking opportunities to help guide and refine disaster planning efforts in various healthcare settings.

Partner organization's point of contact name and email:

Keith F Hansen kfhansen@unmc.edu

Description of partner organization's priority opportunities (APEX activities):

This project is a collaboration between the of work was born from a collaboration between AHEPP and the Administrations for Strategic Preparedness & Response's Technical Resources, Assistance Center, and Information Exchange ([ASPR-TRACIE](#)). The product will be to create one-to-two page synopses of AHEPP webinars. Tasks include:

- Watch AHEPP educational webinars (number TBD)
- Synopsize the information into a one-to-two-page synopsis. This would include:
 - Key takeaways from the webinar
 - Components that should be added to healthcare disaster response plans
 - Related resources
- Work with the AHEPP Tools & Resources committee to edit/improve the synopsis
- Submit the synopses (with credit to the student) to the US DHHS for inclusion in the ASPR-TRACIE web site
- Post some synopses (with credit to the student) to the AHEPP website.

Timeframe of proposed activities:

May 19 to August 15

Benefit of proposed activities to partner organization:

AHEPP members and ASPR-TRACIE benefit from the knowledge shared on AHEPP webinars. Additionally, providing resources to a trusted partner (ASPR-TRACIE) helps strengthen our relationship.

Benefit of proposed activities to the student:

Students will gain significant knowledge about healthcare preparedness. Depending upon the webinars selected, the process of watching, synopsizing, and describing the webinars will assure the student is incredibly knowledgeable about the subject at hand.

*Note—An affiliation agreement will be required prior to student engagement
