Protecting Futures: Prioritizing Maternal and Child Health in Emergencies

May 29, 2024
11:00 AM CST

Quazi Monirul Islam, MBBS, MPH, FRCOG
Moderator
International Centre for Migration, Health and Development
University of Prince of Songkla

The global landscape is increasingly marked by conflict, with millions displaced and countless suffering from violence and its devastating health consequences. While conflicts share common threads, each presents unique challenges for healthcare and public health workers. This webinar series dives deep into the specificities of conflict-related health emergencies and the critical responses when needed.

Presented by:

Ammal Awadallah
Palestinian Family Planning & Protection Association

Manuel Carballo, PhD, MPH, DSc
