

EndNote Installation for UNMC-managed Windows devices

EndNote 21 is now available for UNMC-managed Windows desktop or laptop computers. Follow the instructions below to download the software:

1. Close all Microsoft Office programs and EndNote.
2. In the bottom left corner of your computer, click on the finder search icon.
3. Search for Company Portal (see Image 1)
4. Open the Company Portal app.
5. Click on EndNote, or search for EndNote to locate the installer (see Image 2)
6. Click **EndNote 21 Site license installer**, then install to complete the installation on your computer.
7. Once the installation is complete, locate the EndNote program on your computer using the finder.
8. Open the EndNote program.
